Art Unit: 3781

1. Claims 1, and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation with respect to the armor being made from a same material is confusing.

Same material as what ?

TH Claim 5 ^{has} a same recitation from claim 1 and does not limit the independent claim 1.

2. Claims 1, and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yen (D285626) or Morszech (4509622) in view of Schurman/Raymond et al. (3339781) and Burghardt (4731918), and Sykes (2496182). Either Yen or Morszech teaches a luggage with eight corners, each is provided with a corresponding armor and each armor having a two rectilinear shape and a triangular shape as claimed.. Either Yen or Morszech meets all claimed limitations except for the flushed recess accommodating the armors.

Burghardt teaches that it is known in the art to provide added protection by provide an armor in a recessed portion at a corner. It would have been obvious to one of ordinary skill in the art to provide corresponding recesses for accommodating the armors to provide a flush surface.

Sykes provide further evidence that it is known in the art to provide a flushed corner protection for a luggage. It would have been obvious to one of ordinary skill in the art to provide flushed recesses for accommodating the armors to provide a flush surface as taught by Sykes.

With respect to the container being made from plastic, it would have been obvious to one of ordinary skill in the art to make the case from plastic, as taught by Schurman, to provide the desired material for the box.

3. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
